

fuelpod 3

Doctor Diesel

The most **user-friendly** and **reliable, automated** personal biodiesel processing system in the world!

Want to produce your own clean-burning biodiesel fuel from your new or waste cooking oil? Then the award winning *fuelpod 3* from Doctor Diesel is the ideal choice.

PRODUCES 26 GALLONS
OF BIODIESEL PER BATCH

With its compact 24 inch footprint, the *fuelpod 3* will fit neatly in the back of your garage, producing high quality biodiesel fuel for around **a dollar per gallon**. The *fuelpod 3* typically requires 30 minutes of hands on time per batch.

No vehicle conversion is required. Biodiesel is non-toxic and runs cleaner than petroleum diesel.

Safe

- No sparks. All switching is air controlled
- Thermostatically controlled heating of vegetable oil

Easy to Use

- Timed controls
- Built-in fuel dispensing system
- No water washing of fuel

High Quality Equipment

- Low maintenance, robust design
