

# FuelMeister Upgrade Kit

With this kit, **owners** of the original FuelMeister can upgrade to many of the important benefits found in the FuelMeister II.

## Upgrade Kit

**\$795**

- Oil priming port for the oil draw tube
- Metal methanol pump with quick disconnect hose
- Direct catalyst injection lye lid (Patent Pending)
- Water wash lid with flow regulator
- Pump hose assembly with quick disconnect connector
- Quick disconnect for finished biodiesel barrel
- Quick disconnect for wash tank
- Methanol vapor recovery hose with quick disconnect
- Methanol fill hose with quick disconnect
- Supplemental manual which explains system modifications and processing procedure changes.

The FuelMeister owner will need to make a few minor mechanical changes.

FOB Reno, Nevada. No sales tax if shipped to a location outside of Nevada.
